Helpful Tips for Applicants

Properties marked with an * are central office locations where a Property Manager has weekly office hours. Signs will be posted on the doors listing office hours.

Phone numbers listed are for the central office locations.

Applications and Tenant Screening Criteria are available for pick up at central office locations.

You can also download, view or print applications or screening criteria from our website at: w-nhs.org.

If you reach an automated system when calling a central office number (excluding Camas Commons), press 2 for leasing information about that property.

Press 3 to leave a voice message for the Property Manager. Your call should be returned within 24 hours.

You may find most rental properties have wait lists. *Please do not let this discourage you from applying!* Wait list sizes vary by property and can shrink quickly.
